Effective Solutions to Improve Your Business Performance

PREMIERE: INAUGURAL MAGAZINE

www.industrial-methods.com

**industrial
methods**

Highlight

Industrial Methods—a dedicated sister concern, focusing exclusively on engineering services, to meet the evolving needs of our clients.

About Company

Welcome to the inaugural edition—a window into our storied history and steadfast commitment to excellence within manufacturing solutions. Since 1958, the renowned company “Friend Corporation” has undergone a profound transformation, expanding from its pharmaceutical roots into a versatile entity offering premium machinery for processing, production, and packaging.

As you navigate through these pages, uncover not just the legacy of excellence but also the vibrant community of engineers, thinkers, and doers that defines us. In 2024, recognizing the evolving landscape, we introduced **“Industrial Methods.”**

Unveil the establishment

DELIVERING RESULTS WITH UNWAVERING RELIABILITY AND ROCK-SOLID SOLUTIONS

Editor's Note

First debuts and inaugural moments carry special significance, and undoubtedly, the sentiment holds true for us as we introduce a dynamic world of engineering solutions called "Industrial Methods."

Let's dive into the magazine and explore the technology of tomorrow. Our pride is rooted in furnishing unparalleled support, ensuring the sustained longevity and optimal performance of the solutions we engineer for your satisfaction.

This publication is evidence of our dedication to the company's best practices and innovation. Your insights and feedback are invaluable.

Cheers!

Zainab Fakhruddin

Editor

Doctor of Pharmacy (Pharm.D)

- Annual Contract Services
- Quarterly and Annually Inspection Services
- Factory Acceptance Test
- Site Acceptance Test
- Operations and Engineering Maintenance
- Operational Excellence
- Project Management
- Health, Safety & Environmental Services

From the C.E.O's Desk

The past years have been filled with excitement and triumphs. Despite challenges, our team has demonstrated excellence, achieving both qualitative growth and financial success. We are now set for further expansion.

Our uniqueness lies in our steadfast commitment to "Customer Obsession," setting us apart in the industry. Balancing profitability with a customer-centric approach may present challenges, but prioritizing the customer ensures our sustainability and ultimate success.

I am proud of our stance and actively working towards industry leadership. Our commitment to transparency and ethical production is unwavering, demonstrated through verifiable OEM verifications.

Enjoy the read, and may it inspire you as we eagerly anticipate the future.

Warm Regards,
Kamran Sheikh
C.E.O

We merge experience and technology to develop innovative solutions to our clients's challenges in manufacturing companies, including installation, maintenance, and repair. Committed to quality and innovation, we empower companies with cutting-edge equipment and reliable support for efficient and safe production. Whether you need custom solutions, equipment upgrades, or ongoing assistance, our dedicated team ensures the highest standards in manufacturing technology.

- **Complete Installation & Commissioning**
- **Troubleshooting & Maintenance Services**

Installation - Tablet Compression

Our primary focus is on building a cohesive team and ensuring that each member is well-prepared to exert their utmost efforts in delivering exceptional services to our valued customers. Customer satisfaction is paramount to us. The entire team is adeptly trained to handle technical issues, with authorization from Fedegari to perform IQ and OQ protocols. Additionally, our team has received specialized training from LB Bohle in blender operations. We take pride in providing top-notch after-sales service.

Khizar Sheikh
Director

WE PROVIDE EFFICIENT ENGINEERING SOLUTIONS

- Auto Claves
- Blister Pack
- Metal Detector
- Dust Collectors
- Compression Machine
- Vacuum Conveying System

Choosing the Right Engineering Services

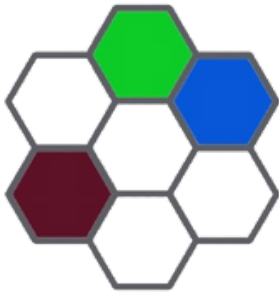

It isn't just a service provider; it signifies a commitment to surpassing industry norms, offering a cutting-edge solutions that embody innovation and reliability.

Maintenance - Deduster

- Blender
- Air Filters
- Granulator
- Coating Pan
- Fluid Bed Drier
- Pouch Packaging

and many more...
